Schedules: Student schedules will be mailed about a week before Summer School starts. Classes are arranged and staff employed on the basis of registration numbers. The number of students registered for a class determines the number of sections and the times each class will be offered. Most summer school classes will run from Monday, June 5, through Thursday July 20, 2017. (No classes the week of July 4, July 3 – 7). Classes which vary from this schedule are identified in the course descriptions. Please be sure to mark your calendars accordingly.

Transportation: Families are responsible for arranging their own transportation unless the student has an accommodation for specialized transportation through an IEP.
